Market Report

The events that most impacted the economy and financial markets during the second half of 2024 included the change in inflation expectations, Donald Trump’s victory in the US elections and the consolidation of the AI theme as a major driver of future economic growth.

All these events pointed to a slowdown in the pace of rate cuts by central banks expected in 2025. Bond markets reflected this trend in the US, with the 10-year Treasury benchmark up 40 basis points to 4.57%, whilst the equivalent two-year bond was up by only 9 basis points to 4.24%. In the eurozone, the gap between maturities was more pronounced. While the 10-year German benchmark bond saw its yield rise by 26 basis points, the return on the two-year bond fell by 73 basis points to 2.08%. Equity indices posted strong gains in the second half of the year, with the exception of some European indices.

The MSCI-World global composite index closed the half-year 6.1% higher to end 2024 with a 19.3% increase. In Europe, the MSCI-Europe composite index closed the half-year down 2.0% and the year 2024 up 4.9%.

The fund’s performance was positive both in the second half of the year and in aggregate over 2024. Fixed income assets contributed positively

to performance during the half-year. Fixed income and cash accounted for approximately 90% of the fund over the half-year period. The portfolio had a duration of between 3.1 and 3.7 years during the half year, above the fund’s long-term benchmark of 3 years. The corporate bond or credit position remained close to 28% of the fund on a stable basis in the period, which helped to mitigate the negative performance of government bonds.

Equities accounted for 9-11% of the fund throughout the period. The high weight of US equities in the portfolio combined with the positive performance of US stock markets and the rise of the US dollar against the euro were the main drivers of the fund’s performance, both in the second half of the year and in 2024 as a whole. Moreover, stock selection outperformed the benchmark over the year, leading to a positive difference in sectors such as Energy, Technology and Real Estate.

Additional Information

We remind you that payments into pension plans made before 31/12/2006 could entitle you to a 40% tax reduction under the conditions and terms laid down by current regulations (except for the Basque Country and Navarre, where the reduction will be applied, where appropriate, under the conditions established by the regional regulations in force). Please also note that:

- for claims occurring between 2011 and 2014: the plan should be redeemed before the end of the eighth year after the claim occurs; and
- for claims occurring after 2015: the plan should be redeemed in the tax year in which the claim occurs or in the following two years.

If you are the holder of several pension plans, you can apply the 40% reduction to all of them (if you are entitled to the tax reduction and have made payments into the plans before 31/12/2006), provided that the redemptions (as a whole) are made in the same tax year.

Information related to environmental and/or social characteristics shall be available in the annex to the Management Report of the Annual Accounts.
